***REASONS FOR ALLOWANCE***

The following is an Examiner's Statement of Reasons for Allowance:

The applicant's amendment filed 10/6/05 overcomes the technical deficiencies and the prior art rejection. Claims 1-4, 8, 11-12, 31-36, 38-39, 43-53, 55-57, 59-62 and 64-67 are allowed because the prior art of record does not suggest the first generator and the second generator as combined in claims 1, 31 and 43, the limitation "measuring a time period of a time-constant circuit including a master controllable tuning element under control of a first clock signal, wherein the time-constant circuit is coupled to a sampler that synchronizes the measure of the time period responsive to a second clock signal" as combined in claim 49, and the limitation "a tuning controller coupled to receive the waveform and having an output to provide the tuning signal to the master circuit and to a Gm-C filter; wherein the controller comprises a convergence detector and a completion detector wherein the first signal generator is to rest the apparatus upon receipt of a convergence output from the convergence detector and to reset the master circuit upon receipt of a completion output from the completion detector" as combined in claim 62.

***CONCLUSION***

Any comments considered necessarily by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
